Have your say on urgent care services in Sittingbourne, Sheppey and Medway

Over the past two years we've been talking to local people about our urgent care services and how we can improve them.

We've heard that people want services that are easily accessible, joined-up, available for both urban and rural communities, fit for the future and which encourage and support prevention and self care.

Please come along to our event to hear what we have been **planning** and support us in **shaping future services**.

Our plans in Swale include:

- Improving NHS 111 and putting a better service in place with more support from GPs and other clinicians and which works better with other urgent care services
- Keeping similar urgent care services to those currently provided at the hospitals in Sittingbourne and Sheppey but making sure they work in a more joined-up way.

Changes are planned for A&E and urgent care services at Medway Hospital and the event will also include a chance to hear about plans there and have your say.

Wednesday 30 August 2017
All day event, lunch provided
Oasis Academy (West Campus)
Marine Parade, Sheerness, ME12 2BE.
